
If your shipment is not picked up as per prescribed target schedule, your shipment will be rerouted as per Freeman's choice of carrier or forced back to Freeman warehouse where you will incur additional handling charges.

This detailed floor plan illustrates the stage area for the 2009 American Music Awards. The layout is organized into a grid of booths, each labeled with a number and the name of the sponsoring company. The stage area is located at the top of the plan, featuring a large central stage labeled "HX: On Stage". The stage is flanked by two large red areas, likely for lighting or sound equipment. The booths are arranged in rows, with some larger booths (e.g., 1084, 1082, 1080) on the left and smaller ones on the right. The plan also shows the "HALL 3E ENTRANCE" at the bottom right, with a red carpet leading to the stage area. The overall design is a complex grid of rectangular spaces, each representing a different booth or area within the stage area.
