THE HOTEL EXPERIENCE
REIMAGINING HOSPITALITY

POWERED BY **AAHOA**

PAFMAC

Sometimes the most important feature of a room can't be seen.

Give your guests complete control of something they can't see but definitely feel...the temperature of the room. PAFMAC turns existing 2 pipe fan coil systems into a true climate control experience. These quiet, energy-efficient PAFMAC systems can be installed room by room, without system-wide interruption meaning less down time during renovation. See for yourself what PAFMAC can do for your hotel.

FREE TRIAL*

Nothing compares to a real world test of our system, its installation and our customer care. Contact us today to discuss a full trial at your hotel.

LETTER FROM EMERALD EXPOSITIONS

Welcome to HX: The Hotel Experience Powered by AAHOA!

This year's HX is the first to incorporate a new partnership with the Asian American Hotel Owners Association (AAHOA), whose members own roughly half of the hotels in the U.S.

When we announced the collaboration in April, I talked about the natural synergy of this venture, and more importantly, the benefits it would bring to the hospitality communities we represent. With HX upon us, I'm more convinced than ever that we made the right decision.

Whether you've taken a subway ride or made the trip via plane, train or automobile, we're determined to make your experience at HX worthwhile. You've invested the time, money and energy, and past attendees have confirmed the return: face-to-face interaction cements learning and inspires.

For example, the opportunity to see, dissect and meet the creator of the Foodservice Pioneering Concept (FPC) in person is better than any online description. All-new educational sessions are packed with experts and peers who understand your problems and your triumphs. Up-and-coming hoteliers and other on-the-rise industry professionals can also expand their networks at the first-ever Young Professionals Reception, which will be held Sunday, Nov. 10 at YOTEL New York.

Between an outstanding conference program developed by AAHOA, countless innovative products to see on the expo floor and the incomparable buzz of the Big Apple, there's a lot to take in during your visit to HX. If your schedule permits, I also invite you to visit the co-located BDNY trade fair, as your HX badge includes complimentary access.

The hospitality landscape is highly competitive, but there's optimism and innovation in the air. We strongly believe you've made the right decision in coming to HX and encourage you to take the knowledge you gain to hit the ground running for a successful 2020. Please reach out to me or any of the HX team if there's anything we can do to make your time here more productive and enjoyable.

Best Regards,

KEVIN GAFFNEY
VICE PRESIDENT & GROUP SHOW DIRECTOR

LETTER FROM AAHOA

Welcome to New York City!

We're pleased and honored you're joining us to help reimagine North America's longest-running hospitality trade show.

When AAHOA and Emerald Expositions began exploring a partnership to reimagine HX: The Hotel Experience, we looked to our strengths and how they complemented what the other had to offer. As we hope you'll experience over the next two days, this collaboration—HX: The Hotel Experience Powered by AAHOA—will deliver great exhibitors and industry-leading educational offerings. New York City is a place with something for everyone and is full of unforgettable experiences. We're confident you'll feel the same way about the reimagined HX.

This conference brings together experts in hospitality to equip you with the tools you need to continue thriving in our industry. Our 24 educational sessions will address a wide range of topics that are vital to running a profitable and successful hotel and F&B business. This includes measuring funding and ROI of technology investments, how successful women network, social media marketing plans, opportunities of dual- and tri-branding, modular construction and many others. We're also pleased to bring you the first-ever networking reception for young professionals at HX.

Both AAHOA's and HX's trade shows are known throughout the industry for the opportunities they present to smart hoteliers looking to maximize their potential and their profits. Over the next two days, we urge you to take the time to explore the expo floor, network, and take advantage of industry-leading education and opportunities to learn.

We're so happy you're here to experience this reimagined historic hospitality event, and we hope you take advantage of everything HX and New York City have to offer.

2019 FOODSERVICE PIONEERING CONCEPT DESIGN

DUALITY

A TASTE OF INNOVATION: EXPERIENCE DUALITY (AND VIRTUAL REALITY) | BOOTH #1136

Each year, professional foodservice design consultants are invited to dream up an F&B model that's tailored to a nontraditional, high-traffic hotel space. These creatives are challenged to use today's most innovative equipment and technologies to produce exceptional menus and service experiences in a lobby. It's all about more possibilities and revenue opportunities for hotel owners, general managers and foodservice operators and better customer experiences for guests.

HX: The Hotel Experience Powered by AAHOA invited a limited number of firms to submit their innovative designs and awarded this year's eight-annual Foodservice Pioneering Concept (FPC) to FoodSpace, headquartered in San Jose, California. Duality is a modular, portable, shippable foodservice concept that is made up of a doughnut shape cut into four quarters with a Yin-Yang shape in the center. This six-piece set can be configured and re-configured to accommodate multiple food concepts. Everything from a poke restaurant to a soup and sandwich bar can be displayed and sold from this concept. Each section can be configured to be self or full service, customer accessible from one or both sides and can also interact with the other sections to create additional shapes and configurations. Duality gives you the blend of hot and cold food products as well as self- and full-service modules. Interchangeable accessories will allow the flexibility to reconfigure a food concept quickly and cost-effectively.

Through a collaboration between HX, the Foodservice Consultants Society International (FCSI) and vendor partners, this design has come to life, built as a working model on the expo floor—complete with interactive demonstrations and samplings. Come join us at booth #1136 to see the working model and experience Duality personalized to your needs in virtual reality.
